

Company Outline

Company Name: PT. KUTAI TIMBER INDONESIA

Established: September 1970

Capital: US\$15,000,000-

Shareholders: Sumitomo Forestry Co.Ltd. 99.7%

Others 0.3%

Production Items: Plywood, Secondary Processed

Plywood, Wood Products

Office & Factory: Head Office: Jakarta

Factory: Probolinggo, East Jawa

Branch: Surabaya, Samarinda.

Reforestation place Krucil, Jember and over 20 place.

Sales amount:	2002	373 (billion Rp)
	2003	48,796 (thousand US\$)
	2004	66,624 (thousand US\$)
	2005	59,878 (thousand US\$)
	2006	79,359 (thousand US\$)

Country of Sales: Japan 40%, North America 7%,

EU 30%, Asia 23%

Number of Employee: 2,766

(Apr-2007 include 10 Japanese Staff)

Factory Outline

Factory Moved: January 1975

Land: Plywood & Woodworking 246,500m²

Particleboard 110,000m²

Product Plywood Line 10,500m³/month

Capacity: Woodworking Line 6,000m³/month

Particleboard Line 11,200m³/month (Plan)

Motto

“QUALITY CREATES TRUSTY AND FUTURE”

This is Sustainability

We bring up trees and children with society.

PT. KUTAI TIMBER INDONESIA

PLYWOOD AND WOOD WORKING

<http://www.kti.co.id/>

Plywood Line

PT. Kutai Timber Indonesia has cultivated technology, trust and experience for 30 years. Now, we are trying to use plantation timber earlier than other plywood companies.

Equipped with five Rotary Lathes

and four Dryers, our Plywood line has the capacity to produce 10,500m³ plywood per month.

With introduction of ISO 9001 Quality Management System and ISO 14001 Environment Management System, we make environment-friendly product under the strict quality control. We produce many kinds of plywood, for example Secondary processed Plywood, Floor Base, Ordinary Plywood, Block Board, LVL, LVB, and so forth.

Woodworking Line

Woodworking line is equipped with various production facilities, such as Air dry space, Kiln Dry chamber, and production equipments of

Bare core / Laminated wood / Sliced Veneer / Door / Sheet Laminate, etc.

Woodworking Line introduces ISO 9001

Quality, and ISO 14001 Environment Management System. The product line of our woodworking is also rich in variety such as Door, Housing components, Fancy wood, Bare Core, Profile woodworking products, etc. We are sure that those great varieties of facilities and products meet various customers' needs.

Particleboard (PB) Line

New factory would promote the effective utilization of resource that have conventionally been discarded such as waste wood discharged by KTI etc. This factory would develop and sell compound secondary processed products that make use of PB. We started to construct the factory in Nov. 2005.

Commercial production will be started in 2008

Plantation & Environment

Recognizing the vital, multiple benefits of forest, PT.KTI takes the following steps to make the best use of afforestation and plantation timber;

1. Develops housing materials based on species considered to have little value in the past.
2. Expands the scale of joint afforestation projects with local people, corporations, universities, and administrative bodies.
3. Conducts afforestation experiments into new fast-growing species and selects quality tree.

Certification

ISO -9002 : Sep. 1997

(Jan. 2004 awarded ISO 9001:2000)

JAS : Jul. 2000 (Jul. 2002 Renewal JAS)

Q-MARK : May 2001

C.E.MARK : Jan. 2004 (for EU)

ISO -14001 : Aug. 2001

C.O.C. : Jan. 2005 (Chain of Custody)

Social Care

To mark its 30th anniversary in 2000, we established the KTI Educational Foundation. The Foundation awards scholarships to elementary and middle school children in the Sebulu and Probolinggo area.

History
